RE: Dave Guenther

In 2003, RTG was a \$3.6 million dollar temporary medical staffing company with big dreams and limited experience. While the company was doing well, RTG needed to grow faster to become recognized as one of the best and biggest temporary medical staffing companies in the United States. We needed help. We needed someone who had grown a company and “knew the ropes” of controlled rapid, profitable business growth.

In November of 2003, after in-depth dialogue identifying and defining issues, opportunities, culture, mission and mutual expectations, Dave joined RTG. Dave had an immediate impact on professionalism, confidence and company stability. Over the past five years, Dave has been instrumental in helping grow RTG Medical into a \$30+ million dollar JCAHO certified industry leader.

RTG was recognized by Inc. magazine as one of the fastest growing private companies in the United States in 2005, 2007 and 2008. The company is positioned for continued profitable growth well into the future.

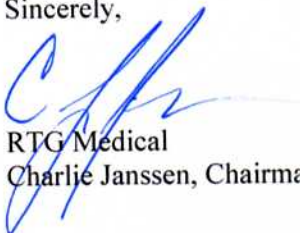

Dave helped us clarify our ideas and communications to customers, employees and other stakeholders. Dave drove the process to secure sufficient capital to rapidly grow the business. Dave championed the building of a cost effective infrastructure, based on technology that provides a solid, scalable foundation for growth. Dave delivered the compensation plan that coupled with our culture and infrastructure attracted the people we needed to grow. Finally, Dave focused the company on personal accountability and consistent execution.

Dave was and continues to be an effective mentor to the RTG team. Dave’s advice, counsel and leadership have helped everyone in the organization grow and expand their business thinking and skills.

Simply put, Dave Guenther delivers results.

Whether you are an entrepreneurial start up, an established public company or somewhere in between, I am confident Dave can make a positive impact on any executive, management team and company that he works with.

Sincerely,

RTG Medical
Charlie Janssen, Chairman and CEO
